101 Harmless Scientific Experiments To Try At Home

We Colonised The Moon

11.8.11 – 25.9.11

Thursday-Sunday, 12 noon - 6pm

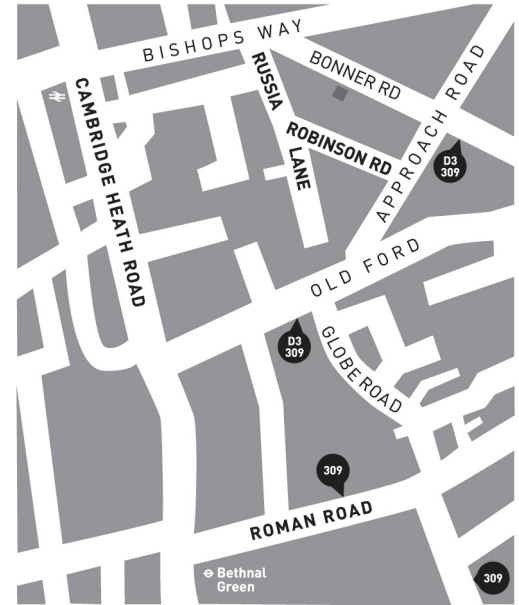

'Super Sunday' 21 August and 4 September

Private View: 16 September, 7pm - 9pm

We Colonised The Moon will be installing a brand new laboratory entitled '101 Harmless Scientific Experiments To Try At Home' at the Acme Project Space this summer.

For six weeks between **11 August and 25 September** (Thursday to Sunday, 12 noon to 6pm) artists' collaboration Sue Corke and Hagen Betzweiser will be investigating and inventing solutions for anti-gravity, time machines and holding auditions for astronauts.

21 August and 4 September will be 'Super Sundays' with events specifically for families. The nature of these events will grow out of the experiments which take place in the preceding week. For details and times visit www.wecolonisedthemoon.com
